DECLARATIONS

Ethics approval and consent to participate

Informed consent was obtained from all individual participants included in the study.

Consent for publication

The participant has consented to the submission of the case report to the journal.

Availability of data and material

The datasets generated during and/or analysed during the current study are available from the corresponding author on reasonable request.

Competing interests

The authors declare that they have no competing interests.

Funding

This research was funded by Indonesia Endowment Fund for Education, Indonesian Ministry of Finance (Lembaga Pengelola Dana Pendidikan, Kementerian Keuangan, Republik Indonesia) through the RISPRO LPDP grant scheme with the contract number of PRJ-38/LPDP/2020.

Authors' contributions

INA, DHT, and APP performed the experiment and wrote the manuscript; JP, DN prepared the research designs, administered bacterial isolates, and supervised research activities; SW, LW, and KF co-authored the manuscript and performed statistical analyses.

Acknowledgements

The authors thank Elena Fransina Leonor Lilipaly and Fariz Kustiawan Alfarisy for their contribution in managing research administration.
